

## Serving as a Team

For Gold International Diamond David Phillips, service has become a major focal point in his business, and in his life. In his early years with 4Life®, David was excited for the opportunity to help HIV-positive children in South Africa at Nkosi’s Haven. During convention 2007, David was overcome with emotion as he listened to 4Life Co-founder Bianca Lisonbee speak about the children at La Casa Rosada. He immediately bought a painting through the convention art auction and began making monthly Foundation 4Life donations. He says, “Looking back, I wish I had started monthly donations a lot earlier.”

When several individuals in David’s distributor group wanted to make a big impact in their own communities, David was thrilled. International Diamond Nongnut Buwan began donating

4Life Transfer Factor® products to children at an orphanage in Thailand, and David sent her extra money so she could purchase more products. When Presidential Diamond Patricia Wilson experienced devastation in her hometown after Hurricane Ike, David sent her 4Life Transfer Factor products and brochures so she could help those in need and continue building her business. David also sent several cases of 4Life Transfer Factor Plus® Tri-Factor® Formula with a minister on his way to an orphanage in Africa.

David frequently talks with his distributor group about getting involved with Foundation 4Life and encourages them to make monthly donations. He comments, “I love knowing that we can make a difference as individuals. And by working together with Foundation 4Life, we can make a huge difference. I firmly

believe that we should always give back to humanity. I have been blessed with a good income, so I know in my heart that some of that must be ‘returned.’”

*A long-time 4Life distributor, David Phillips calls Washington home. He invites all distributors to get involved with Foundation 4Life and make a monthly contribution.*
